Syrian Private University

الجامعة السورية الخاصة

الكلية : هندسة الحاسوب والمعلوماتية

المادة : تحليل رياضي

اسم مدرس المادة: د.عمار دركل

اسم الطالب : ....

رقم الطالب : ....

الفصل الدراسي: الأول 2025/2026

Q1) Choose the correct answer (41 m):

1) Which clause is used in SQL to filter the records? (v35)

  A) WHERE

  B) HAVING

  C) ORDER

  D) GROUP

2) Which SQL function is used to count the number of rows in a SQL query? (v8)

  A) COUNT()

  B) SUM()

  C) TOTAL()

  D) NUMBER()

3) What does SQL stand for? (v21)

  A) Structured Query Language

  B) Strong Question Line

  C) Simple Query Language

  D) Structured Question Language

4) Which command is used to remove all records from a table in SQL? (v13)

  A) DELETE

  B) REMOVE

  C) DROP

  D) CLEAR

5) Which command is used to remove all records from a table in SQL? (v3)

  A) DELETE

  B) REMOVE

  C) DROP

  D) CLEAR

6) What is a primary key in a database? (v4)

  A) A unique identifier for each record

  B) A duplicate value for each record

  C) An optional field

  D) A calculated field

7) What does SQL stand for? (v11)

  A) Structured Query Language

  B) Strong Question Line

  C) Simple Query Language

  D) Structured Question Language

8) Which SQL statement is used to extract data from a database? (v42)

  A) SELECT

  B) GET

  C) EXTRACT

9) In relational databases, normalization is used to: (v10)

   A) Eliminate data redundancy

   B) Create more tables

   C) Increase data access speed

   D) Reduce indexing

10) Which SQL statement is used to extract data from a database? (v22)

   A) SELECT

   B) GET

   C) EXTRACT

   D) OPEN

11) Which SQL statement is used to extract data from a database? (v12)

   A) SELECT

   B) GET

   C) EXTRACT

   D) OPEN

12) In relational databases, normalization is used to: (v20)

   A) Eliminate data redundancy

   B) Create more tables

   C) Increase data access speed

   D) Reduce indexing

13) Which clause is used in SQL to filter the records? (v25)

   A) WHERE

   B) HAVING

   C) ORDER

   D) GROUP

14) A FOREIGN KEY in one table points to a _____ in another table. (v7)

   A) PRIMARY KEY

   B) FOREIGN KEY

   C) UNIQUE KEY

   D) ALTERNATE KEY

15) Which SQL function is used to count the number of rows in a SQL query? (v48)

   A) COUNT()

   B) SUM()

   C) TOTAL()

   D) NUMBER()

16) In SQL, which keyword is used to sort the result-set? (v6)

   A) ORDER BY

   B) SORT

   C) GROUP BY

   D) ARRANGE

17) What is a primary key in a database? (v44)

   A) A unique identifier for each record

   B) A duplicate value for each record

   C) An optional field

   D) A calculated field

18) Which SQL statement is used to extract data from a database? (v32)

   A) SELECT

   B) GET

   C) EXTRACT

   D) OPEN

19) In SQL, which keyword is used to sort the

20) In relational databases, normalization is

result-set? (v16)

   A) ORDER BY

   B) SORT

   C) GROUP BY

   D) ARRANGE

used to: (v40)

   A) Eliminate data redundancy

   B) Create more tables

   C) Increase data access speed

   D) Reduce indexing

21) Which SQL function is used to count the number of rows in a SQL query? (v18)

   A) COUNT()

   B) SUM()

   C) TOTAL()

   D) NUMBER()

22) In SQL, which keyword is used to sort the result-set? (v36)

   A) ORDER BY

   B) SORT

   C) GROUP BY

   D) ARRANGE

23) Which clause is used in SQL to filter the records? (v5)

   A) WHERE

   B) HAVING

   C) ORDER

   D) GROUP

24) In relational databases, normalization is used to: (v30)

   A) Eliminate data redundancy

   B) Create more tables

   C) Increase data access speed

   D) Reduce indexing

25) Which SQL statement is used to extract data from a database? (v2)

   A) SELECT

   B) GET

   C) EXTRACT

   D) OPEN

26) Which clause is used in SQL to filter the records? (v15)

   A) WHERE

   B) HAVING

   C) ORDER

   D) GROUP

27) In relational databases, normalization is used to: (v50)

   A) Eliminate data redundancy

   B) Create more tables

   C) Increase data access speed

   D) Reduce indexing

28) In SQL, which keyword is used to sort the result-set? (v46)

   A) ORDER BY

   B) SORT

   C) GROUP BY

   D) ARRANGE

29) Which SQL function is used to count the number of rows in a SQL query? (v28)

   A) COUNT()

   B) SUM()

30) Which command is used to remove all records from a table in SQL? (v33)

   A) DELETE

   B) REMOVE

C) TOTAL()

D) NUMBER()

C) DROP

D) CLEAR

31) What does SQL stand for? (v41)
A) Structured Query Language

B) Strong Question Line

C) Simple Query Language

D) Structured Question Language

32) Which SQL function is used to count the number of rows in a SQL query? (v38)
A) COUNT()

B) SUM()

C) TOTAL()

D) NUMBER()

33) What is a primary key in a database? (v34)
A) A unique identifier for each record

B) A duplicate value for each record

C) An optional field

D) A calculated field

34) In SQL, which keyword is used to sort the result-set? (v26)
A) ORDER BY

B) SORT

C) GROUP BY

D) ARRANGE

35) Which command is used to remove all records from a table in SQL? (v23)
A) DELETE

B) REMOVE

C) DROP

D) CLEAR

36) What does SQL stand for? (v1)
A) Structured Query Language

B) Strong Question Line

C) Simple Query Language

D) Structured Question Language

37) What is a primary key in a database? (v24)
A) A unique identifier for each record

B) A duplicate value for each record

C) An optional field

D) A calculated field

38) Which command is used to remove all records from a table in SQL? (v43)
A) DELETE

B) REMOVE

C) DROP

D) CLEAR

39) What does SQL stand for? (v31)
A) Structured Query Language

B) Strong Question Line

C) Simple Query Language

D) Structured Question Language

40) Which clause is used in SQL to filter the records? (v45)
A) WHERE

B) HAVING

C) ORDER

D) GROUP

41) What is a primary key in a database? (v14)

A) A unique identifier for each record

B) A duplicate value for each record

C) An optional field

D) A calculated field
